

Name: Way Big

One-line Introduction: Way Big is the Omnitrix's DNA sample of a To'kustar, a race of gigantic aliens created during unpredictable cosmic storms.

Appearance: Way Big is described as a white, 100-foot tall humanoid creature. He has a large frill on his head, which is black at the front and red at the bottom. Blade-like growths adorn his shoulders, and there are spikes on his waist. His arms are red with three black lines and white fins on the elbows, with wristband-like outgrowths on his wrists. He has yellow eyes, with two extra eyes protruding on his cheeks. His feet are red with two toes and a black sandal-like covering on the middle of his feet, and three black lines on the side of his neck. The red parts of Way Big's body are made of an unknown cosmic material with metallic properties. In **Alien Force** and **Ultimate Alien**, Way Big was a little bigger than he was in the Original Series. His head frill was red on the front and black on the bottom, his arms were white with red fins, and his neck and wrists were black. Way Big's eyes are green and he did not bear the extra ones on his cheeks. He lacked the stripes on his arms as well as the blades on his shoulders and waist. He also had red boot-like feet and did not have the sandal-like coverings. In **Omniverse**, Way Big has two red lines on his neck, the blades on his shoulders and waist have returned and are red, and he also has black fingerless gloves, similar to the ones Four Arms wears in the same series. He is now more muscular, his head is less skull-shaped and has eyes on his cheeks again, which are more metallic. The fins on his arms are longer and he has regained the stripes on his arms and legs, and the wristband-like outgrowths on his wrists. Way Big wears the original Omnitrix/Ultimatrix/Omnitrix symbol on his chest. Mad Ben's Way Big is similar to Ben Prime's in **Omniverse**, but with orange replacing the eyes and red parts. He wears gray shoulder pads with orange spikes, spiked shoes, and orange wraps around his forearms and calves. Azmuth as Evil Way Big looks identical to Way Big's appearance in the film except the red parts of his body are recolored blue, the white parts recolored grey, his eyes recolored red, and the Omnitrix symbol replaced with a red circle with a silver rim.

History: Way Big first appeared in **Ben 10: Secret of the Omnitrix**, where he was unlocked by Azmuth. He destroyed Vilgax's army and threw Vilgax into space. In **Ben 10: Destroy All Aliens**, Way Big appeared twice, once in a dream and then in a battle against Evil Way Big. Five years prior to **Omniverse**, Way Big defeated Dr. Animo and his mosquito creature in **Special Delivery** and survived a massive fall in **From Hedorium to Eternity**. In **Alien Force**, he was locked by the Omnitrix's reconfiguration in **Ben 10 Returns: Part 1**, then re-unlocked in **War of the Worlds: Part 1**, and failed to destroy a Hyperspace Jump Gate. He was one of the aliens who escaped from the Omnitrix in **Vengeance of Vilgax: Part 2** but was reabsorbed. He stopped a war in **Simple** and defeated a giant Vilgax in **Primus**. In **Ultimate Alien**, Way Big crushed the Stalker and Will Harangue's car in **Video Games**, defeated Gwen in **Absolute Power: Part 1**, and fought Eon in **Ben 10,000 Returns**. He destroyed monster buildings in **The Perfect Girlfriend**, battled Sentient Ultimate forms in **The Ultimate Sacrifice**, fought the Trash Monster in **The Widening Gyre**, and appeared as a cameo in **Ben 10/Generator Rex: Heroes United**. Kevin as Way Big prepared to break into the Techadon Factory in **Inspector #13**. Way Big went Ultimate to battle Dagon in **The Ultimate Enemy: Part 2**. In **Omniverse**, he was defeated by a giant Trombipulor in **Blukic and Driba Go to Mr. Smoothy's**, battled Malware in **Showdown: Part 2**, saved people from a sign in **The Frogs of War: Part 1**, battled the Way Bads in **The Frogs of War: Part 2**, defeated Trombipulor in **Universe vs. Tennyson**, and appeared briefly in **A New Dawn**. In the original future timeline shown in **Ken 10**, Way Big punched Kevin 11,000. In Mad Ben's timeline, Mad Way Big battled Rath and Lightning Volt in **It's a Mad, Mad, Mad Ben World: Part 2**. In the comics, Way Big caught the Black Knight in **Black Knight's Flight**.

Weaknesses: The frill on Way Big's head is his greatest weakness, as attacking it causes great pain and stuns him. His massive size makes him clumsy, leading to accidental property damage. Smaller opponents like Nanomech can exploit his size. He is vulnerable to powerful discharges of electricity and can be rendered unconscious by sedative quills. He can also be controlled by Vladats via their Corrupturas.

Powers and Abilities: Way Big can shoot powerful cosmic rays from his right hand by crossing his arms together, capable of disintegrating a small planet. He possesses enhanced strength, able to hurl targets into orbit and lift extremely heavy objects. He has great durability, withstanding attacks from opponents his size. Way Big can jump very high and has quick reflexes. He has enhanced speed, creating massive vortexes, and a large stride. He can survive in the vacuum of space and extreme temperatures.

Personality: Not mentioned.
