

Name: NRG

One-line Introduction: NRG is the Omnitrix's DNA sample of a Prypiatosian-B from the planet Prypiatos in the Andromeda Galaxy.

Appearance: NRG is a humanoid alien who constantly emits pure, red, radioactive energy. He wears a heavy, dark green-teal oven-like containment suit with three slits that allow some of his radioactive energy to escape. In *\*Omniverse\**, NRG's containment suit has a handle on the head and bolts on the shoulders, three more bolts on each hand, and two on the chest. Inside his suit, NRG wears a green and black lower-level containment suit consisting of two straps, a belt, two wristbands on both arms, and two knee braces on both legs. His eyes are now green with lightning-like eyebrows. While in his armor, NRG wears the Ultimatrix/Omnitrix symbol on its chest seal. In his true form, the Omnitrix symbol is on his belt. Negative NRG, as Albedo, looks just like Ben's NRG in *\*Ultimate Alien\**, but without the Ultimatrix symbol on his containment suit or true form. Mad Ben's NRG wears a containment suit similar to Ben Prime's in *\*Omniverse\**, but has orange spikes on the lower arms, shoulders, legs, and hands; a grey plate on his grill; and a spiked handle. The light coming out of the grill is orange, like his Omnitrix symbol.

History: NRG's DNA was sampled and put in the Codon Stream when the Ultimatrix scanned P'Andor's DNA in *\*Too Hot to Handle\**. He first appeared in *\*The Forge of Creation\**, where he briefly fought 10-year-old Heatblast. In *\*Absolute Power: Part 1\**, NRG battled and was defeated by Ultimate Kevin and briefly battled Gwen. In *\*The Transmogrification of Eunice\**, NRG battled and was defeated by Sunder. In *\*The Creature From Beyond\**, NRG fought the Lucubra. In *\*The Purge\**, NRG battled Trombipulor and challenged Sir Driscoll to a duel. In *\*Double or Nothing\**, NRG freed himself from Fridge's ice and fought Swamps and Hugh. In *\*The Widening Gyre\**, NRG battled the Trash Monster. In *\*Night of the Living Nightmare\**, NRG appeared in a dream where Ben as NRG destroyed the Cassiopeian Dream Eater, and Negative NRG failed to defeat Ben. In *\*Omniverse\**, NRG failed to catch Bubble Helmet, Liam, and Fistina in *\*The More Things Change: Part 2\**. He defeated the Incurseans in *\*So Long, and Thanks for All the Smoothies\**. In *\*Hot Stretch\**, NRG stopped the Kraaho from destroying the Earth with lava, revealing his true form for the first time. In *\*Showdown: Part 2\**, NRG helped defend Galvan Prime from a meteor shower. In *\*Ben Again\**, 11-year-old Ben used NRG in 16-year-old Ben's body to find coordinates in a reactor. In *\*The Frogs of War: Part 1\**, NRG accidentally set a building on fire. In *\*Rad Monster Party\**, NRG used his true form to harm Zs'Skayr. In *\*A New Dawn\**, NRG appeared briefly. In *\*It's a Mad, Mad, Mad Ben World: Part 2\**, Mad NRG stopped the rebelling slaves. In the comics, NRG appeared in *\*Remote Control\**, *\*Jail Break\**, and *\*Museum Mayhem\**. NRG is one of the Andromeda Galaxy aliens playable in the game *\*Ben 10 Ultimate Alien: Cosmic Destruction\**. NRG is a playable Exosuit of the Atlas Brigade on *\*Project Exonaut\**.

Weaknesses: Due to the dangerous radiation his body emits, NRG must stay in his suit for the safety of others, which weakens his output and removes abilities like agility, intangibility, and flight. His radioactive blasts can be absorbed by the plasma generated by members of Ball Weevil's species. NRG is vulnerable to carbon dampening rods, which inhibit the radiation he generates.

Powers and Abilities: NRG can fire highly radioactive energy beams through the vent in his containment suit, capable of destroying large objects, harming strong opponents, and slicing through objects. He can amplify the heat within his suit, melting solid metal and rock upon contact and radiating heat from a short distance. His containment suit is very durable, able to withstand crashes. NRG is also quite strong. NRG can survive underwater and is immune to radiation, lead poisoning, being frozen, extreme heat, fire attacks from a Methanosian, electricity attacks from a Cerebrocrustacean, and possession by a Lucubra. He is also immune to being controlled by a Vladat via their Corrupturas. NRG can detect and track energy from long distances. Outside of his containment suit, NRG can expel energy at a much higher level, firing energy balls and blasts from his hands and radioactive energy beams from his eyes. He can absorb external sources of energy, such as electricity and uranium, becoming stronger and growing in size. NRG is capable of squashing and stretching his body and becoming intangible. He also has enhanced durability, agility, and can fly extremely fast, as well as levitate and make himself glow extremely bright,

harming Ectonurites.
