

Name: Goop

One-line Introduction: Goop is the Omnitrix's DNA sample of a Polymorph from an unknown and destroyed planet and the planet Viscosia.

Appearance: Goop is a green gelatinous humanoid that can take any shape at will. He is a 200-pound single-celled organism that is neither liquid nor solid, but a colloidal suspension. Goop has bright green eyes and an Anti-Gravity Projector that allows him to be mobile in Earth's gravity. His brain is spread throughout his body. In Alien Force and Ultimate Alien, Goop wore the original Omnitrix/Ultimatrix symbol on his chest. In Heroes United, the black outlines around Goop's eyes were thicker. In Omniverse, Goop has a nose-like beak and an amoeba-like shape. His Anti-Gravity Projector has been redesigned and the Omnitrix symbol is on the top of it. Albedo as Negative Goop looked exactly like Ben's Goop in Alien Force. In Omniverse, Negative Goop looks mostly the same as Ben's Goop except his body, eyes, and the Ultimatrix on his Anti-Gravity Projector are recolored red.

History: Goop first appeared in \*The Gauntlet\*, where he defeated a Techadon Robot. In \*Darkstar Rising\*, Goop defeated Prior Gahlil. In \*Good Copy, Bad Copy\*, Negative Goop hid from the team in a computer store and scared many customers away in the process. Later, Ben as Goop battled Negative Humungousaur before switching into Swampfire. In \*Undercover\*, Goop saved Cooper from some DNAliens. In \*Birds of a Feather\*, Goop helped Simian escape from some guards. In \*Vengeance of Vilgax: Part 2\*, Goop escaped from the Omnitrix and hid in the sewers. He fought Swampfire before getting reabsorbed by him. The same scene reoccurred on TV in \*Fame\*. In \*Don't Fear the Repo\*, Goop fought the Vreadle Brothers. In \*Simple\*, Goop was used to avoid getting hurt after being pushed off a cliff. In \*Fool's Gold\*, Goop defeated Mr. Coleman. In \*Singlehanded\*, Diamondhead turned into Goop to save himself from a bridge collapse while Julie was using his hand as a weapon, disgusting her. In \*In Charm's Way\*, Goop battled a Rock Monster until it was sucked into a magic vortex. In \*Primus\*, Ben turned Vilgax into Goop and pulled the Omnitrix off his chest, removing the Omnitrix from Vilgax. In \*Above and Beyond\*, Goop battled Pierce. In \*Andreas' Fault\*, Goop broke out of a dungeon cell and knocked out a Forever Knight guard. In \*Hero Time\*, Goop saved Julie from falling and battled Overlord before turning into Waterhazard even though the chosen alien was Big Chill. In \*Deep\*, Goop failed to escape some fans until Gwen and Kevin rescued him. Later, Goop used his Anti-Gravity Projector to save Piscciss. Although Goop was atomized and spread throughout Piscciss' sea, he was able to pull Piscciss back together. In \*...Nor Iron Bars a Cage\*, Goop escaped a prison cell and unlocked the door to let Gwen out. In \*Viktor: The Spoils\*, Goop briefly appeared as King Xarion was looking through the Ultimatrix for Ampfibian. In \*Revenge of the Swarm\*, Goop fought a Dr. Victor Valadis clone until it escaped into a sewer and left a Microchip behind, which Goop discovered. In \*Ben 10,000 Returns\*, Goop battled some of Eon's minions. In \*The Creature From Beyond\*, Goop saved Gwen and Kevin from falling to their deaths. In \*Greetings From Techadon\*, Goop fought a Techadon Robot. In \*The Perfect Girlfriend\*, Goop was trapped and tortured by Ssserpent until "Julie" saved him. In \*Ben 10/Generator Rex: Heroes United\*, Goop appeared as one of the many aliens when Ben was explaining his story to Rex. In \*Catch a Falling Star\*, Goop broke into Captain Nemesis and Jennifer Nocturne's motel room. In \*Night of the Living Nightmare\*, Goop battled Vilgax before switching into Ultimate Spidermonkey in a dream. In \*The Beginning of the End\*, Goop defeated a group of Forever Knights on the Rustbucket 3. In \*Blukic and Driba Go to Mr. Smoothy's\*, Goop battled Trombipulor and saved Blukic and Driba from being devoured by him before switching into Echo Echo. In \*Ben Again\*, Goop was used by 11-year-old Ben in 16-year-old Ben's body to find a clue in a sink pipe. In \*The Ultimate Heist\*, Negative Goop was defeated by Terraspin while trying to retrieve the Polymorphic Crystal. In \*A Fistful of Brains\*, Goop was defeated by Ultimate Albedo. In \*It's a Mad, Mad, Mad Ben World: Part 1\*, Goop defeated Exo-Skull, but was destabilized by Subdora. Fortunately, though, Goop's remains unintentionally created a means to track them down. In \*A New Dawn\*, Goop appeared for a short time when Ben was cycling through his aliens. In \*Bad Boy\* Goop tricked Highbreed and DNAliens that Kevin is Ben and battled them. In \*Double Trouble\*, Goop fought Forever Knights. Then Albedo as Goop fought Ben as Echo Echo. In \*Collectible Heroes\*, Goop was used briefly to outsmart the Collector, before switching to Jetray. In \*Jail Break\*, Goop fought against Sool.

**Weaknesses:** Goop is limited by his Anti-Gravity Projector controlling his body, making it a vulnerable target for opponents. Goop's opponents can grab it to forcefully pull Goop back or shoot it with a Positron Blaster, which causes Goop to spin rapidly and explode into multiple parts. The Anti-Gravity Projector can also simply be switched off. If Goop's Anti-Gravity Projector is separated from him or deactivated, Goop's body collapses into a puddle, only capable of slowly slithering around until it is reactivated or he recollects it. Despite being able to survive being atomized, Goop will start to hurt if he is spun very quickly in a centrifuge and beginning to separate into his constituent compounds. Similarly, Goop would be destroyed on a molecular level should he be teleported due to being a single-celled organism. Goop is vulnerable to being super heated and vaporized by an Evolved Galvan's energy beams. Goop is vulnerable to being hypnotized. Goop can be affected by a Nemuina's sleeping dust.

**Powers and Abilities:** Goop's entire body is comprised of green cytoplasm that is very bouncy and elastic. This gives him a wide and gangly range of motion, able to stretch his limbs very far to extend his grab reach, or the reach of his punches and kicks. It also allows him to absorb all manner of impacts, useful for blocking opponents' attacks or cushioning falling people. Goop has the power of shapeshifting, allowing him to stretch, bend, and deform himself into any shape with ease, ranging from a pseudopod-protruding glob of goo to a stretchy, bouncing ball and everything in between. He can use this to dodge attacks; increase mobility; wrap around enemies; slip underneath doors or through small spaces; and return to his normal shape if he is ever deformed or separated. Using his shapeshifting, Goop can mimic the shape of simple objects well enough to fool opponents, provided they don't look too closely. Goop can also produce multiple prehensile pseudopods from his body to grab multiple opponents. Goop can produce additional cytoplasm to regenerate, make himself bigger, or have a stronger kinetic impact. He can also change its density depending on his desire, and the density of Goop's cytoplasm can increase to the point of breaking a metal pipe by the sheer force of its impact. Due to being made of cytoplasm, Goop can hold objects or individuals inside his body to protect them. He can also wrap himself around someone to bind them in place. Goop is able to generate and expel cytoplasm from any part of his body for use as offensive weaponry, even as spit despite having no visible mouth. The cytoplasm he generates can change properties to be very adhesive. He can shoot it in continuous streams similar to a water hose or in blob-like projectiles. Goop is capable of making himself acidic at will, or his projectiles. His acid is able to dissolve a large variety of materials. If he needs to, Goop is also able to neutralize his own acid. Goop possesses enhanced strength, as he could wrestle Prior Gahlil, someone who could easily overpower an armored Osmosian. He can also increase the impact power of his attacks by stretching himself backwards and using the recoil to boost his momentum. Due to his body's incredible elasticity, Goop is extremely resilient, and his brain being spread across his body makes it so that he feels no pain from most physical attacks. This allows him to survive lethal falls without a scratch and be bisected numerous times. Goop's cytoplasm is hydrophobic, allowing him to survive underwater. Goop can additionally survive being atomized across an entire planet's worth of water volume, such as he did with Pisciss. Moreover, he was able to generate enough additional goop to color all the planet's water green. Goop can survive in intense heat, such as the environment of his home planet Viscosia. Goop can pass under an enemy's foot in order to make them slip. Goop can move his eyes all throughout his body. He can also merge his eyes into one. Goop's Anti-Gravity Projector allows him to be fully mobile on foreign planets like Earth by generating a corrective field of gravity around him. It also enhances his shapeshifting capabilities, such as assisting in reconstituting himself. If Goop loses his Anti-Gravity Projector, the Omnitrix/Ulmatrix can immediately generate a new one. Thanks to his Anti-Gravity Projector, Goop is capable of high-speed flight and levitation, being able to easily evade Trombipulor's shots. Goop's Anti-Gravity Projector has enough strength to pull continental-like masses of cytoplasm together, such as the cytoplasm-infected waters of Pisciss. Goop can control and launch his Anti-Gravity Projector at enemies to attack them due to the edges of it being razor-sharp.

**Personality:** Gwen's opinion on Goop is that he is "Cool, but gross." Ben believes Goop's high-pitched voice prevents others from taking him seriously.
